

PELLET STOVE TIPS

Sourcing Pellets: Pellets can easily be sourced at our local Ace Hardware or in Reno at Costco and many other businesses. Pellets come in 40lb bags at an ideal dryness level, making it a far less complicated fuel than firewood.

Storage: Pellets do need to be stored in a dry location like a garage, shed, or well covered porch.

If you're considering upgrading to a pellet stove consider the following items, 1. pellet stoves require a small amount of electricity to operate. If you need a generator, the district can help provide one. 2. There are creative ways to handle the 40lb bags. Carriers and scoops are designed to help loading pellet stoves easy for the home owner 3. Pellet stoves are different from wood stoves. Take the time to read your user manual and make sure you understand how to operate your new pellet device and you will be sure to love it!
